	<p>متن را با دقت خوانده و به سوالات زیر پاسخ دهید.</p> <p>Simple ways to protect wildlife</p> <p>One easy way to protect wildlife is learning about the endangered animals that live around you. Teach your friends and family about the wonderful birds, fish and plants that live near your home. In this way, they are going to be more careful about nature. You can also visit a national wildlife museum or park. These places give good information about how to protect endangered animals and their homes. You can do voluntary work in these places to help animals and their babies. Another thing you can do is protecting the natural home of the endangered animals. When you keep nature clean and safe, the animals will live longer. Protecting the trees of forests is also helpful. If you live in a village, you need to be very careful about the hunters who come to your village to hurt animals. Whenever you see these people, you need to call the police. These are simple things, but they will help nature a lot.</p> <p>True or False</p> <p>۱) Learning about endangered animals is not important. (True / False) <u>False</u></p> <p>۲) You can do voluntary work in wildlife parks. (True / False) <u>True</u></p> <p>۳) Keeping nature clean hurts animals. One of the most important parts of the body is blood. The heart pumps this red liquid around the body. This keeps us healthy and alive. More than half of blood is plasma. This is a clear and yellow liquid. It carries red and white cells. There are millions of red blood cells in one small drop of blood. They carry oxygen round the body and collect carbon dioxide from body parts. There are thousands of white cells in a drop of blood. They are bigger than red cells. They defend our body against microbes.

Heart pumps blood around the body. **(T)** True ☐ False ☐

Plasma is red. **(F)** True ☐ False ☐

White cells carry oxygen round the body. **(F)** True ☐ False ☐
